DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 41, 45-47 stand rejected under 35 U.S.C. 102(b) as being anticipated by Ziegler of record for reasons of record.

Response to Arguments

Applicant's arguments filed 8/8/08 have been fully considered but they are not persuasive.

With regard to the Ziegler patent applicants argue "Ziegler discloses in claim 1, an electrolyte comprising a compound of the general formula $\text{MeBR}_3\text{R}'$, wherein Me is alkali metal (sodium or a mixture of sodium and potassium), B is boron, R is an alkyl radical and R' is hydrogen, alkyl, or alkoxy. An ether may be added to the electrolyte bath (col. 3, lines 57-64). Ziegler fails to disclose use of an ether as a component of the cathode.

Regarding a cathode, Ziegler refers to cathodes made of copper, brass, iron or nickel and other alloys (see, col. 1, lines 37-40 and by reference, col. 2, lines 24-25). No other mention of cathode composition is mentioned until the Examples. Specifically, Ziegler discloses use of a cathode of sheet copper in Example 1 and a cathode of a screen of copper or iron wire in Example 4. "

The "electrolyte" recited in the Ziegler patent would perform the same function, i.e., as a part of the cathode, because the same type of materials are claimed, i.e., a

solvated alkali metal. Merely by adding a functional preamble, such as a “cathode” does not structurally alter what amounts to an electrolyte contacting a cathode or current collector.

Accordingly, the claims stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
